

Motion: Request that the Arrowhead Lodge budget be increased from \$200 to \$300 to facilitate the cleaning of the cabins in anticipation of renting them to the public.

Discussion: For the past 15 years PWV has supported Arrowhead Lodge in various ways. Even though it may not be the core mission of PWV, it falls under "assisting the Canyon Lakes Ranger District." Support has included general clean-up, roofing cabins, donating leftovers from Spring Training, to painting and staining buildings. This past year only \$200 was requested since there was some stain leftover and only 4 cabins remained to be stained. But the Forest Supervisor has made the decision to turn the cabins into revenue generating assets. The initial step is to thoroughly clean them and remove all junk. It has been determined to safely accomplish this task that protective gear will be required. The additional funds will be needed to purchase respirators, tyvek suits including booties and hats, gloves and high quality shop vac filter bags.
